Tutis / VReddo Partnership

A new era in training...

Commercial In Confidence

Simplifying compliance
in a complex world

Partnership

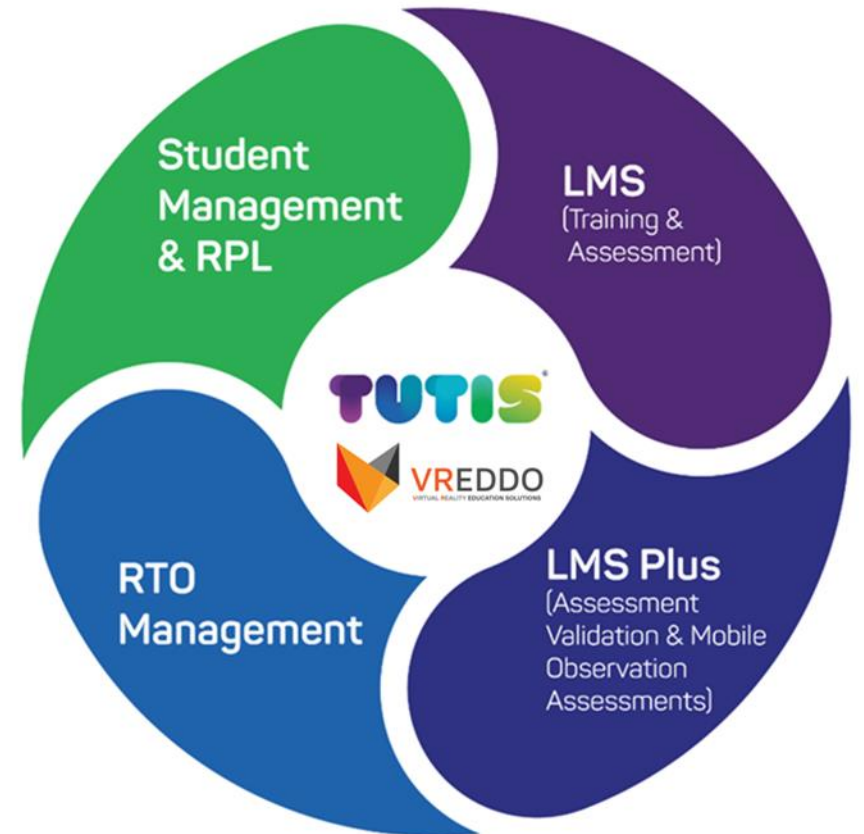

Tutis VReddo Partnership

- Tutis has partnered with VReddo to offer virtual reality products including VReddo's simulated classroom and simulated practical assessment products as part of the Tutis product set, as optional modules.
- This combines:
 - VReddo's cutting-edge virtual reality technology and products
 - Tutis's comprehensive training, assessment and compliance functionality
- Delivering:
 - Significantly more efficient use of trainers and assessors
 - Greater flexibility and less travel by trainers, assessors and students
 - Lower cost, greater consistency
 - Much more effective, engaging, blended, remote training
 - More attractive to students and enterprises
 - Effective and flexible, simulated, *practical* VR training

Tutis VReddo Partnership Key Elements

- Initially integrating TUTIS_TRAIN with VReddo's Classroom product
- Offering VReddo Classroom module as a TUTIS_TRAIN option comprising:
 - TUTIS Classroom add-on features and integration
 - VReddo Classroom product
- Tutis integrations with Vreddo Training Labs product and others to follow

VReddo Products

VReddo Classrooms

Interactive Live VR Classroom
Training

Live Classroom for
remote instructor led
training

VReddo Training Labs

Interactive VR Training Experiences

Interactive, hands-on
training & assessment
for practical learning

VReddo Skillsets

Immersive, always-on VR Learning
Modules

Pre-recorded,
interactive training.
Anytime, anywhere

VReddo Showcases

Immersive VR Demonstrations

VR Demonstrations

VReddo Classroom Product

- Live, video, interactive remote learning
- Delivering virtual face-to-face training
- Use of fully immerse holograms and virtual teleporting

VReddo Training Labs Product

Interact in virtual environments, manipulate objects, perform tasks and solve problems. Learners can experience risk scenarios & learn how to respond effectively & appropriately in a safe environment

Tutis: VReddo Classroom training type

Training Courses to include VR Classroom and VR Training Labs type training objects

See TUTIS screenshot below showing blend of training objects which comprise a training course:

Skills Assessment	HLTAID003-S01 - Provide first aid (0.00%)	Active	
Activated:	01/05/2020 15:13		

TUTIS_TRAIN / VReddo Classroom Integration

Solution Design

1. TUTIS adds a new instrument type - VR Classroom
 - Functions to add VR Classroom sessions as TUTIS Training element to a Training Object/Offering
2. Control access - cater for pre-requisites
3. Authentication of student via Proctor service (optional)
 - Proctor service could be used where for example training is being delivered to multiple office
4. Attendance register: PIN number (Who actually attended)
5. Retain student notes and progress - if required (single sitting)
6. Course Completion: Signed off by instructor
 - Function to delete attendance from attendee list is they did not attend all the session
7. Date and time stamp for all activity - plus also geolocated (future)
8. Pricing Model - Price details follow

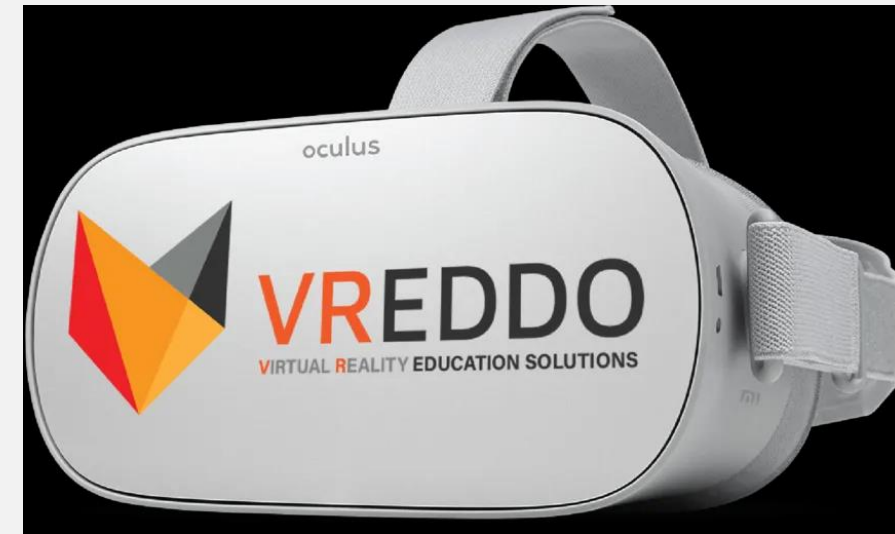

Pricing Model - Add-on to TUTIS_TRAIN		
VReddo Classroom Licence	per Headset	per month
VReddo Classroom Hosting	Fixed Fee	per month
TUTIS_TRAIN Classroom Module	Fixed Fee	per month
<i>Note: Headsets are extra - purchased by customers directly</i>		

Cost is around \$250 per headset

Benefits

- More efficient
 - Better use of specialist trainer time eg one trainer can provide training simultaneously to several sites at once, without students having to travel
- Most consistent
 - Workers (students) get exactly the same information because from the one trainer
- More effective
 - The training is more effective because wearing headsets makes it a much more immerse and engaging experience, especially compared with zoom or similar conferencing

TUTIS uses Oculus Go for students
